

Lake District National Park Partnership

Looking after

THE ENGLISH LAKE DISTRICT
WORLD HERITAGE SITE

Partnership Plan

5-year management plan to 2026

Vision for Park in 2030

5 Themes:

- Climate Action
 - Future of Farming, Forestry, Nature Recovery and Climate Change
 - A Lake District for Everyone
 - Sustainable Travel and Transport
 - Vibrant Communities and a Prosperous Ec
- all in a World Heritage Site context

New Plan for 2026-2031

Hearing youth voices

Committed to working with our local communities

Always more to do!

Conscious we were not working with/ hearing from young people

Invitation to Hub 'Youth Voice' participants to join a Partnership meeting

Videos introduced by their creators

Workshop with Partners

Draw on our young guests' experience of living in or close to the Lake District to gain insights that will help the Partnership understand the concerns of young people.

1. What are the key issues/concerns for young people living in the Lake District?
2. How can the Partnership meaningfully hear from young people about the future?
3. We're about to start writing our next management plan for the Lake District. How might we present this to improve youth engagement?

Pledges from participants

Quotes from the day:

More engagement via schools, colleges and young farmers

Variety of opinion from different age groups important

Avoid jargon, use plain English

Co-creation not consultation

Funding incentives for young people to participate

What a great event. I hope we can keep momentum up

Impressive young people

Insightful videos

Thank you for the very informative, even inspiring, day yesterday.

What an inspiring group of young people!

Next steps?
