

Community Led Planning Turning Consultation Results into an Action Plan

Identify issues where there is a clear overall mandate (majority)

e.g. 78% in favour of building affordable housing.

Identify issues where there is a clear minority need

e.g. help for the elderly, parking affecting a particular street etc.

Identify issues where there is a majority support or a minority need but you think are a low priority or difficult to influence.

Identify issues where there is neither majority support nor a minority need.

Create a series of aims e.g.

- Protect and enhance Biodiversity in the Parish
- Improve support for the elderly and disabled
- Improve parking arrangements in the Parish

Discuss issues with relevant agency if needed i.e. local authority. Decide whether to include in the action plan. If you don't, explain why in the final Community Led Plan.

- Carry out a Housing Needs Survey
- Recruit volunteers to an Affordable Housing working group
- Undertake further one-to-one interviews with elderly residents to establish their needs
- Investigate parking behaviour at X
- Discuss options with local authority to reduce parking problems at X

Your Community Led Plan should:

Communicate your survey results and contain an action plan, with a series of aims and clear actions, which reflect these.

Please share your draft Plan with:

ACT; Local Authority incl. National Park Authority (where appropriate); local community groups and any other agencies / organisations whose help you will need to deliver the actions.

ACT champions community and rural issues
